### New Air Blows Lash Japan

#### WEAK FIGHTER OPPOSITION IS ENCOUNTERED

**Nipponese Factories and Railroads Wrecked and Some Shipping Sunk Offshore**  
**3,000 TONS DUMPED**

Guam, July 13—(AP)—Virtually unopposed air blows by around 700 B-29s, heavy and medium bombers, fighters and long range search planes across a 770-mile arc of Japan, extending north and south of Tokyo, were announced today. Promptly a U. S. Air general on Okinawa declared "the Japs, in my opinion, don't intend to engage us in the air."

As enemy homeland factories and railroads were wrecked and even the smallest shipping sunk offshore, Brig. Gen. David F. Hutchinson of the Far East Air Force told Associated Press Correspondent Richard Cushing at Okinawa that Japan obviously was hoarding planes to use in suicide tactics when Yank infantrymen storm Nippon's invasion beaches.

Rear Adm. D. C. Ramsey, new chief of staff of the Fifth Fleet, estimated Japan might have 9,000 planes available and probably could throw about 4,000 into the battle over Japan.

Only weak fighter opposition was encountered over Tokyo bay and a city to the north as super-forces dropped 3,000 tons of fire and demolition bombs on five homeland centers before dawn today, returning pilots reported.

The enemy air force relinquished homeland skies so completely that fleet search planes flew nearly 200 miles north of Tokyo to hit small shipping off Sendai, then returned to two—a round trip flight of nearly 2,000 miles.

It is approximately 770 miles from Sendai to the southernmost target hit on Kyushu.

Superfort Bombarriers, building up the number of Japanese cities they have hit to 38, had to bomb by instrument through cloud bank but crews brought back these reports:

Kawasaki oil center on reclaimed island in Tokyo bay—seven big fires started, visible even through overcast; very slight enemy attempt at interception.

Tsura, 55 miles northwest of Nagoya—a steady red glow started at that embarkation port for troops bound for Korea and Manchuria.

Utsunomiya—Weak air opposition brushed aside at that trade and transport center 60 miles north of Tokyo; raiders fought 60-mile-an-hour wind.

Ichinomiya—Incendiaries spilled through clouds on the war industry city nine miles northwest of Nagoya.

Uwajima—Flashes of the fire bombs view with "St. Elmo's fire" (static electricity) over that port and war production center on the west-central coast of Shikoku island; rain storm lifted one B-29 4,000 feet.

#### Liberty Ship Docks With 371 Soldiers

New York, July 13—(AP)—The Liberty ship John Howland docked at Staten Island today with 371 troops, including 277 soldiers of the 824th Tank Destroyer Battalion.

The transport Santa Paula is due later today with 1,646 passengers, to bring the day's arrivals to 2,017. On the Santa Paul are the 810th Air Engineers Squadron, the 640th Air Materiel Squadron and six WACs.

#### HARRISBURG DENTIST REPORTED A SUICIDE

Harrisburg, July 13—(AP)—Assistant County Coroner Frank Heidel reported a finding today of apparent suicide in the death from a gunshot wound of Dr. Bernard S. Handler, 36, a dentist.

Samuel Handler, an attorney found the body of his brother late yesterday in the kitchen floor in the apartment in the rear of the dentist's office. There was a pistol wound in the head and a gun was found beside the body.

Attorney Handler said his brother had been in ill health for some time.

#### Accused In Death

Mrs. Anne E. Duffley, above, 40, of Philadelphia, faces murder charge in death of her 2½-year-old granddaughter, Sandra Lee McCann, whose soldier-father was killed overseas without seeing her. Mrs. Duffley said she "patted" baby to make her behave while being bathed. Police charge blows caused the child's death.

#### British Units Are Bombing The Nicobars

Calcutta, July 13—(AP)—British fleet units have bombarded the strategic Nicobar island while carrier planes attacked airfields in northwest Sumatra, southeast Asia Command headquarters announced tonight in a special communique.

British minesweepers swept the approaches to Malacca strait, which lies between Sumatra and the great naval base of Singapore, from July 5 to 10 without sighting a Japanese vessel.

While fleet units attacked the Nicobars, planes also laid their explosives on the islands. The Nicobars lie 280 miles northwest of Sumatra, rich Dutch oil producing island, and about 900 miles off Singapore. They are 400 miles west of the Kra peninsula of Malaya, linking Singapore to the mainland of Asia.

Rear Adm. W. R. Patterson commanded the attacking warships—the Fifth Cruiser Squadron—which included the cruiser Nigeria, the carriers Ancon and Utsunomiya.

#### Fugitive For Six Years Surrenders

Philadelphia, July 13—(AP)—Mrs. Josephine Sadita, 43, surrendered yesterday after hiding six years on a Virginia farm while she was under indictment on murder charges in the arsenic death of Pietro Peroli, 53.

The woman was among 24 persons indicted in 1939 for the insurance killings of more than 100 persons.

Detective Walter Coyne said Mrs. Sadita told him she surrendered because of ill health and at the pleadings of her five children. She was indicted jointly with Mrs. Rose Carina and Mrs. Grace Giovannetta, Peroli's first wife. Mrs. Giovannetta testified in 1939 that Mrs. Sadita gave Peroli "the cure" which preceded his death. Later, Mrs. Giovannetta said, Mrs. Sadita forced her to turn over Peroli's insurance policy.

Mrs. Carina was acquitted but Mrs. Giovannetta served a 5 to 10 year sentence.

#### Yanks Following Example Of Reds on Fraternization Rule

BY DANIEL DE LUCE  
Berlin, July 13—(AP)—To the great relief of G. I. and Tommy Atkins, when you're in Berlin you do as the Russians do.

In other words, American and British troops in the German capital—most of whom are fed up with the non-fraternization policy in force in western Germany—are copying the internationally friendly ways of the Red army in peace-time.

The generals may say that nothing has been changed in the rule book since they moved more than 30,000 American and British soldiers into Berlin. But things nevertheless seem to be different.

Ivanovich—the Red army equivalent of G. I. Joe—operates on the understanding that he's not supposed to take dyes in the wool Nazis to his bosom. He believes

#### FATE OF NAZI CHIEFS TO BE DECIDED SOON

**Problem of Handling the Hundreds of High Ranking Officers Up to Generals**  
**INFORMAL DISCUSSIONS**

By GEORGE TUCKER  
Frankfurt, July 13—(AP)—Gen. Eisenhower and Field Marshal Montgomery are expected to decide soon on what to do with the German general staff.

At midnight tonight supreme headquarters of the Allied Expeditionary force will be dissolved, but the problem of handling the hundreds of high ranking staff and field officers of the German army who are prisoners of the western Allies awaits final disposition.

British and American officers held informal discussions on the matter during Eisenhower's absence.

These conversations touched on the possibility of breaking up the German general staff and condemning its members to exile in British crown colonies throughout the world, but the talks were regarded as no more than ground clearing expeditions assembling data to be presented to Eisenhower and Montgomery.

Of the captured German military hierarchy one SHAEF officer said:

"Some of them ought to be shot as criminals and undoubtedly will be. Others must be regarded purely as military figures who carried out military orders. All these officers are still in uniform and are classified strictly as military prisoners."

"The greatest emphasis, however, is placed on the members of the general staff. The general staff is a special clique, almost hereditary."

Even lesser staff officers down to the grades of majors and captains are believed destined for the same fate as general staff officers.

The German general staff stems from an inner army organization known as "Ober Kommando Heers" or OKH. It is this staff which has assigned to the bomb squad.

He doesn't think he is a lucky number.

"I've been handling bombs for 13 years," Pidgeon said, "and I haven't been blown up yet."

#### Rules Relaxed On Physically Unfit Men 26

Washington, July 13—(AP)—Men 26 or over who do not meet the army's regular physical standards are free today to change jobs without draft board permission.

At the request of the army, Selective Service last night relaxed its regulations to exclude these men from the possibility of induction as job-jumpers.

Heretofore these registrants who switched employment without approval of their board could be drafted for limited army service.

The job-jumper penalties, invoked six months ago to nip a trend away from war work, remain in effect for all physically fit men, as well as for registrants under 26 who fall shy of regular requirements.

Men in the latter group who fail to clear job changes will continue to be inducted under relaxed physical standards.

Older men freed of clearance responsibility are those classified in 4-F, 2-A (F), 2-A (L), 2-B (F) and 2-B (L).

All of these are classes for men who do not meet regular physical standards.

that Nazis properly belong behind bars, and that Germans who are not Nazis are entitled to be treated without race hatred. Premier Stalin's words to that effect appear on many signboards.

Therefore, when Ivan saunters out in the early evening he feels perfectly free to drop into a convenient cafe, strike up an acquaintance with any German girl and invite her to dance and drink with him.

In the past week American and British troops also have been crowding night spots favored by the Russians.

Last Monday, British, Canadian and American military police—operating in teams—began trying to discourage public dancing by troops of the western Allies along such bright light avenues as Kurfuerstendamm.

#### Violence Flares In Newspaper Strike

(NEA Telephoto)  
Striking New York City newspaper delivery man, on hands and knees, above, bites wrist of youth he caught with armload of papers. Affray occurred near Commodore Hotel.

New York, July 13—(AP)—The Publishers Association of New York City today notified striking members of the Newspaper and Mail Deliverers' Union (Ind.), it would be forced to terminate the employment of those who did not return to work. Their action came as police guards around major New York newspaper plants were increased, after the War Labor Board gave the publishers a free hand to employ workers other than the striking delivermen by rescinding its order extending the union's contract. The strike, which has prevented distribution of 14 major newspapers, is in its thirteenth day.

#### Thirteen Lucky For Chicago Policeman

Chicago, July 13—(AP)—Policeman Marshall Pidgeon shined up his badge, No. 13, looked at the calendar and recalled today is the 13th anniversary of his assignment to the bomb squad.

He doesn't think he is a lucky number.

"I've been handling bombs for 13 years," Pidgeon said, "and I haven't been blown up yet."

#### Scranton Man Denies Paying Fee To Judge

Washington, July 13—(AP)—John Menolo, Scranton, Pa., attorney, told a house committee today that he had not "as far as I know" paid any money directly or indirectly to former Federal Judge Albert W. Johnson.

When John H. Bigelow, attorney for Johnson, asked Menolo during cross-examination if he did not know for certain, Menolo replied:

"That is beyond me, I don't know."

Menolo had testified yesterday at a house judiciary subcommittee hearing on the conduct of the former judge of the Pennsylvania middle district that he had been paid \$200,000 by Johnson.

#### Beaver Co. Wins Bond Drive Trophy

Pittsburgh, July 13—(AP)—Beaver county outstripped the other 18 western Pennsylvania counties in the Ft. Pitt area to win the Seventh War Loan "E" Bond trophy with 323 per cent oversubscription as its quota, the War Finance Committee said today.

The 19-county area topped its \$137,760,000 quota for individual bonds, the largest in seven drives, by buying \$200,549,000 worth. Final returns from corporations and other big investors were expected today.

Runner-up to Beaver county in the "E" bond derby was Mercer, with 118.9 per cent. Lawrence was third with 116.9. Westmoreland fourth 111.1, Butler 108, Greene 107.9, Washington 104.

Other counties: Erie 99.8, Somerset 98.3, Armstrong and Indiana 96.3, Forest 95.2, Warren 93.1, Crawford 92.7, Venango 88.2, Fayette and Jefferson 87.6, Clarion 83.9.

#### Storm Damages More Vessels Than Jap Navy Has Been Able To Do In Any Single Battle

Guam, July 13—(AP)—A raging typhoon lashed Adm. William F. (Bull) Halsey's Third Fleet with 138-mile-an-hour winds last June 5, tore the bow off the cruiser Pittsburgh and damaged at least 20 other ships, Adm. Chester W. Nimitz announced today after virtually every damaged ship was back in action.

At least four of the damaged ships—the battleships Massachusetts and Indiana, the carrier San Jacinto and the destroyer John Rodgers—participated in last Tuesday's 1,000-plane carrier strike at Tokyo.

The typhoon damaged more ships than the Japanese navy has been able to do in action in any single battle. But Nimitz made no mention of anyone being killed or seriously injured. He said no ships were sunk.

He listed 20 damaged ships as repaired and back in action, including three fast new battleships and two Essex class carriers.

The cruiser Pittsburgh, which miraculously stayed afloat, is being refitted for action. Presumably some additional ships, not identified, were damaged and have not returned to sea.

Many of the ships were badly hurt by towering 100 foot high seas. None was heavily hit that the fast, new cruiser Pittsburgh, which was caught near the center of the storm off the Ryukyu islands.

A thunderous sea ripped off 104 feet of her prow "and tossed it aside as though it were a match box to wallow in the storm off the ship's port side," reported Associated Press Correspondent Robin Coons.

Capt. John E. Gingrich ordered the engines reversed and swung the 655 foot ship, precariously around in a circle to escape a collision with her own bow. She came out in the dead calm of the storm's center.

Sealed bulkheads kept the Pittsburgh afloat and the cruiser, normally capable of 33 knots, lumbered back to Guam at nine knots for temporary repairs. The bow was taken in tow by a tug and brought back to port.

Towering seas crushed 25 feet of the carrier Hornet's flight deck and badly damaged several destroyers, other correspondents reported.

Nimitz said definitely no one was lost from the most heavily damaged ship—the Pittsburgh. Nor was a man on her seriously injured.

Ships which suffered damage and have returned to action include Essex class carriers Hornet and Bennington, the fast battleship Alabama, the Independence class cruiser type carrier Belleau Wood, destroyer Blu and escort carrier Bougainville.

The Nimitz announcement did not specify where the typhoon struck the third fleet but presumably it was in the western Pacific area between Okinawa and the Philippines.

Last December 18 another typhoon struck the Third Fleet between the Philippines and the Marianas and three destroyers capsize and were lost in the violent seas.

Admiral Halsey had taken over the Third Fleet eight days before the second storm broke.

On June 2 and 3, as the storm approached, Halsey's carrier planes swept Kyushu in the last fast carrier force action reported until the July 10 attack on the Tokyo area and nearby airfields.

Presumably Halsey's ships retired to a port in that period for repair and refitting before starting their foray into Honshu waters.

A heavy running sea can inflict particularly violent damage to a carrier. To make as much space as possible available on its deck for receiving and launching planes, the rectangular platform extends over bow and stern.

As the giant ships plow under the waves, walls of water run the length of the ship, sometimes carrying the triced planes with them.

Of the ships five were carriers—two of the giant Essex class; two of the smaller converted cruiser class, and one escort carrier.

#### Legion Protests Treatment of Japs

McConnellsburg, July 13—(AP)—An American Legion post has protested use of Bedford Springs Hotel, Bedford, to house Japanese diplomats captured in Berlin.

Sur's treatment, said James L. Gattins, commander of the McConnellsburg Legion Post, is the reverse of the treatment given American prisoners of war.

The state department announced several weeks ago that 137 Japanese diplomatic and consular officers and dependents seized by Allied troops would be quartered at the Bedford hotel.

One group of Japanese officials has already been reported to have arrived at New York, but port of embarkation officials have cloaked their activities in secrecy.

Gattins said the Japanese maltreated American and English officials, even conducting mass massacres.

#### LEADERS WITH VARIED VIEWS BACK CHARTER

**Four Outstanding Witnesses Urge Senate Ratification of United Nations Treaty**

#### MAY REPORT TONIGHT

Washington, July 13—(AP)—Four leaders of different political views declared today that the senate ought to ratify the United Nations Charter speedily to establish American responsibility in international peace-making.

President William Green of the American Federation of Labor; John Foster Dulles, foreign affairs advisor to Gov. Thomas E. Dewey in the 1944 presidential campaign; Norman Thomas, former Socialist candidate for president, and Philip Murray, president of the CIO, all endorsed the Charter.

They appeared as witnesses in the senate foreign relations committee's final day of hearings on the 50-nation agreement signed at San Francisco.

Green, first on the stand, told committee members the Charter will make possible "collective bargaining" between the nations that ought to go along way toward preventing war.

Dulles, who served as chief advisor to the American delegation at San Francisco, said in a statement prepared for delivery before the committee that "the United States is at the parting of the ways."

"Either we must act to continue the association of the United Nations or we must let that association lapse and go it alone," he declared in urging approval of the Charter.

Murray, in a statement submitted to the committee, called for "the early and overwhelming approval of the Charter." He declared that "reservations or limitations of any description to the United Nations Charter must be understood as simply an attempt to defeat its enactment."

Chairman Connally (D-Tex.), forecast a favorable committee report either tonight or tomorrow morning.

Senator Johnson (R-Calif.), opponent of the old League of Nations, told reporters the committee vote "will not be unanimous" but added that his own inclination now "is to go along with the crowd."

That statement is as far as Johnson has gone in stating his position toward a world league this time, but he insisted it is not a subject on which he will vote.

Majority Leader Barkley (Ky.) said the senate would take up the treaty Monday, July 23, indicating a vote on the treaty.

#### WAC Chief Back In Civilian Role

Washington, July 13—(AP)—Col. Oveta Culp Hobby returned today to her civilian role of career woman, wife and mother as the Women's Army Corps carried on under a new director.

The 46-year-old retiring WAC organizer, her hair swept smoothly into a pompadour above her summer uniform, stood by yesterday while Undersecretary of War Patterson announced her resignation.

Then she watched her own eagles pinned on the shoulders of her deputy, Col. Westray Battle Boyce of Rocky Mount, N. C. The new director said she accepted her responsibilities with "great humility."

Colonel Hobby told reporters she is retiring after nearly four years to return "to my family and my business." She is the wife of William P. Hobby, publisher of the Houston (Tex.) Post.

Patterson praised Colonel Hobby for "for notable service rendered to the army and to the nation."

#### Disputes Keep Over 45,000 Workers Idle

Labor disputes disrupted a varied line of industries in more than a score of cities today, keeping idle some 45,000 workers.

New cities were listed along the strike front as the number of stoppages hit a new high for the month. One strike which ended in the last 24 hours enabled 7,900 workers to go back to their jobs.

The controversies, some of which have failed of settlement after week of work stoppage, affected coal miners in Illinois and Pennsylvania; newspaper printers in five cities; cigar workers in Tampa, Fla., and thousands of men and women employed in war plants.

One of the latest stoppages was at seven coal mines in Southern Illinois.

Milk deliveries in Detroit were back to normal today for the first time since Monday as the 1,000 striking employees of two dairies returned to work. The walkout had deprived a half million dairies of their milk.

Labor disputes continued to halt and curtail publication and distribution of the newspapers in New York City, Birmingham, Ala., Fort Wayne, Ind., Jersey City, and Bayonne, N. J.

The War Labor Board acted to end two strikes, including the nation's largest single stoppage. It directed the 16,500 CIO United Rubber Workers on strike at the (Turn to Page Eleven)

#### Fetes Reporters Before Execution

Salt Lake City, July 13—(AP)—A few minutes after calmly serving cherry pie to reporters, James Joseph Roedel, sharp-faced, young murderer of a woman school teacher, died before a firing squad in the Utah prison yard at daybreak today.

He drank coffee and smoked a cigar, then calmly said "so long," before the black hood was slipped over his head.

The 30-30 caliber bullets from the five-man firing squad thudded into the thin chest of the 27-year-old Oklahoma City man at 5:37 a. m., Mountain War Time.

Roedel, like all persons condemned to death in Utah, had to choose between the firing line and the gallows.

Roedel was convicted of killing Mrs. Abigail Agnes Williams, San Leandro, Calif., in October, 1942, and leaving her battered body lying alongside an eastern Utah highway.

#### FORMER TREASURER OF PENNSYLVANIA DIES

Concordville, July 13—(AP)—Frank P. Willis, 88, Republican state secretary of agriculture from 1923 to 1927, died at his home here last night.

He was treasurer of the State Grange for 30 years, treasurer for many years of the National Milk Producers Association, and first president of the Inter-State Milk Producers Association.

He served for 20 years as a trustee of Pennsylvania State College.

#### State Council of Defense To Switch To Volunteer Basis

Harrisburg, July 13—(AP)—The staff of the State Council of Defense will switch to a volunteer basis starting July 15.

Governor Martin announced the change yesterday and said it will result in a saving of approximately \$140,000 a year.

At the same time Martin called on county and local defense councils "to reach a volunteer basis as early as convenient but to maintain all services intact whether active or not, and to maintain control centers which can be activated by the state disaster plan when emergencies arise."

All war service and protective service organizations are to be maintained and no councils, services or committees are discharged, the chief executive said in a statement, adding:

"Salvage must continue and this state must continue to lead the nation in securing necessary material. Victory gardens, the production and conservation of food must be encouraged and assisted. Child care centers and teen age centers cannot be terminated immediately."

Dr. Ralph Cooper Hutchison, executive director of the council, said approximately 17 paid staff members will go off the salary list July 15 and about the same number by September 1.

Hutchison said volunteer workers in the Defense Council have always outnumbered paid personnel and they will continue as before. His own salary of \$10,000 a year, he added, has been going to Washington and Jefferson college from which he had a leave of absence as president.

### IRVINE

Irvine, July 9—July 4th passed very quiet here, many went away for the holiday and others spent a quiet day at home.

Mr. and Mrs. G. H. Stevenson spent their holiday by going to Canada.

Mrs. Margaret Smith, Mrs. Edna Connors and their family spent a few days with their brother and family at Kittanning, Pa., their old home.

Mr. and Mrs. Robert Christie and Mr. and Mrs. Edward Archibald spent the 4th by enjoying a picnic at the Drake Well, near Titusville.

Floyd Walters of Pittsburgh came the night before the 4th to

visit his mother, Irene Walters and they spent July 4th at Lilly Dale, N. Y. The next day July 5th was Floyd's birthday, he took his mother to Warren in the forenoon to attend some business. He returned to Pittsburgh in the afternoon.

Mrs. H. R. Poppleton of Sharon, Pa., came last week on a flying trip, she rented her home to Joe Randanilla, formerly of this place,

but recently of Youngsville, they are getting ready to move in.

Ross Walters, his two boys, Ross Henry and Tommy, his mother, Bertha Walters of Irvine and sister Alma Austin of Youngsville spent Friday with Mr. and Mrs. E. A. Long at Port Allegheny, Pa.

Kathleen Johnson returned home last evening after spending a week enjoying the weeks vacation from the shop office at a dis-

## Beatty Circus One of Best Here in Many Years Past

The Clyde Beatty Circus which showed Warren yesterday was one of the best that has been in Warren in many years. The show is a large one and is transported on trucks. It is equivalent of the old time 20 car railroad show and affords some fine entertainment. One feature that appeals is the cleanliness of the show there being no "grifters" on "come easy" boys on the show in any capacity.

The program was preceded by a band concert played by a good sized band and the circus tunes kept tapping. The big feature of the show, of course, is the Trained Wild Animal Act of Beatty. With a group of lions and tigers numbering close to 40 he puts the big cats through their paces in approved manner. There is only one Clyde Beatty, when it comes to wild animal performances.

Mrs. Harriett Beatty also presents an act with a tiger riding on an elephant and leaping

through a ring of fire. This act also scored and won much applause.

The Flying Escavitas, a troupe of Mexican aerialists had the crowds spell bound by their thrilling performances and this act scored heavily. The ease and grace with which the casting was done high in mid air won approval and it is one of the best acts of the kind since the famous Flying Wards, of years ago.

The trained elephants worked by comely girls, the high school horses and the 12 horse drill also won approval. The remainder of the program composed of acrobats, and aerial ballet, contortionists and the inevitable clowns all went over good and won applause.

The attendance was not as large as had been expected but those in attendance were generous with applause. The show left early this morning for Oil City where it appears today.

## Many Plant Problems Being Handled By I.C.S. Graduates

Opportunities for advancement in a corporation such as Struthers Wells are unlimited. Due to the varied type of work going through their three plants, almost all phases of metal working and designing are covered.

In the Warren plant nearly every item fabricated is special, such as fractionating towers for chemical and petroleum industries, special mixing equipment for synthetic rubber, heat exchangers for maritime and commercial use, all types of vessels built of various metals and alloys used in nearly every industry in the United States.

One Titusville plant is engaged in making steering gears, windlasses and special machinery for

maritime use, in addition to plate fabricated work for various industries.

The other Titusville plant makes special forgings, such as crank and drive shafts for maritime purposes, gun barrels, die blocks, hollow forgings and heavy walled pressure vessels.

These numerous products present many problems both in design and actual fabrication, a number of these problems are now handled by I. C. S. trained men.

Fred Keller, chief draftsman of the Warren plant, is an I. C. S. graduate as well as many of his assistants. In the plant many of the foremen and operating men are either I.C.S. graduates or students.

tant place, we have not the name now.

Chester Westfall arrived home a week ago last Saturday in the evening and Freddy Wilson arrived in the early morning, both for a thirty-day furlough.

Carl Myers of Sharon, Pa., is visiting his brother Joe Myers on West Main street.

Our town is a busy place with all the men and machinery down on the flats near the depot, which is for the work being done on the road widening Route 62.

### FRANCO GOVERNMENT IN TIGHT SPOT

DeWitt MacKenzie, Associated Foreign Affairs Analyst

One of the critical and delicate cases likely to be considered at the coming clinic of Doctors Truman, Stalin and Churchill—physicians extraordinary to the world—is that of Spain, the problem being what measures are necessary to purge this proud and important country of the Axis plague.

The way things stand now, it looks very much as though the cure of Spain's ills lies in a change of government. Support for that idea is seen in the action of a commission at the San Francisco security conference—the commission having voted that the Franco regime, because it had Axis support in coming to power, should never be admitted to membership. That's a broad hint, to say the least.

Now, of course it would be easy for the Big Three to treat Spain's malady roughly. A lot of folk are asking why the United Nations should be considerate in the case of Spain when we have just fought the bloodiest war of history to exterminate Nazism and Fascism. Why not use the big stick?

I'm afraid the answer isn't quite so easy as that. After all, sovereignty is the mightiest item among the many nations, great and small, which came so close to slavery at the hands of the Axis. The Big Three undoubtedly would prefer that Spain cure herself. That attitude has been pursued even in the case of Italy.

Here it should be emphasized that there's a difference between "Spain" and the Franco Falange party which is in power. The generalissimo consorted with Hitler and Mussolini throughout the war—something which none of the United Nations can forgive. Apart from that, Moscow won't soon forget that the Franco regime has been violently anti-Communist from the start and was pitted against the Communists in the civil war that brought him to power.

Britain, while roundly condemning Madrid's dealings with Hitler and Mussolini, has more than once shown a desire to give Spain a chance to rehabilitate herself. Prime Minister Churchill gave an indication of that last year when he told commons that he looked forward to increasingly good relations with Spain and to "an extremely fertile trade between Spain and this country (Britain)" during the war and after the peace.

### ANOTHER YEAR TO VICTORY?

It may take another year to beat Japan to its knees, says Business Week. It advises "responsible executives" to evaluate a few basic facts about the Far East so they may more readily draw their own conclusions. At the same time the business observer admits Japan has been gravely weakened during the past 14 months.

And then it points out that "Borneo is slipping from Japanese control with so little resistance the whole island is likely to be in Allied hands within a month."

"Though Japanese cities are being battered in a crescendo of Allied bombing, Army experts—fresh from target studies in Germany—estimate that Japan is still producing planes at the rate of 1,200 to 1,500 a month, ships at the rate of 1,000,000 tons a year, and steel at nearly 1,000,000 tons a month," says the publication.

"While the Nipponese Navy undoubtedly is too badly smashed to attempt any comeback on the long lifeline to southeast Asia, enough units probably are left to protect, for many more months, the short inside supply route from Korea to Manchuria.

"With big-scale fighting confined, so far, to single campaigns—in the Philippines, on Iwo Jima, and on Okinawa—the drain on either manpower or supplies has not been serious for a nation reputed to have between 7,000,000 and 10,000,000 men under arms and vast stocks of raw materials stored for just such an emergency.

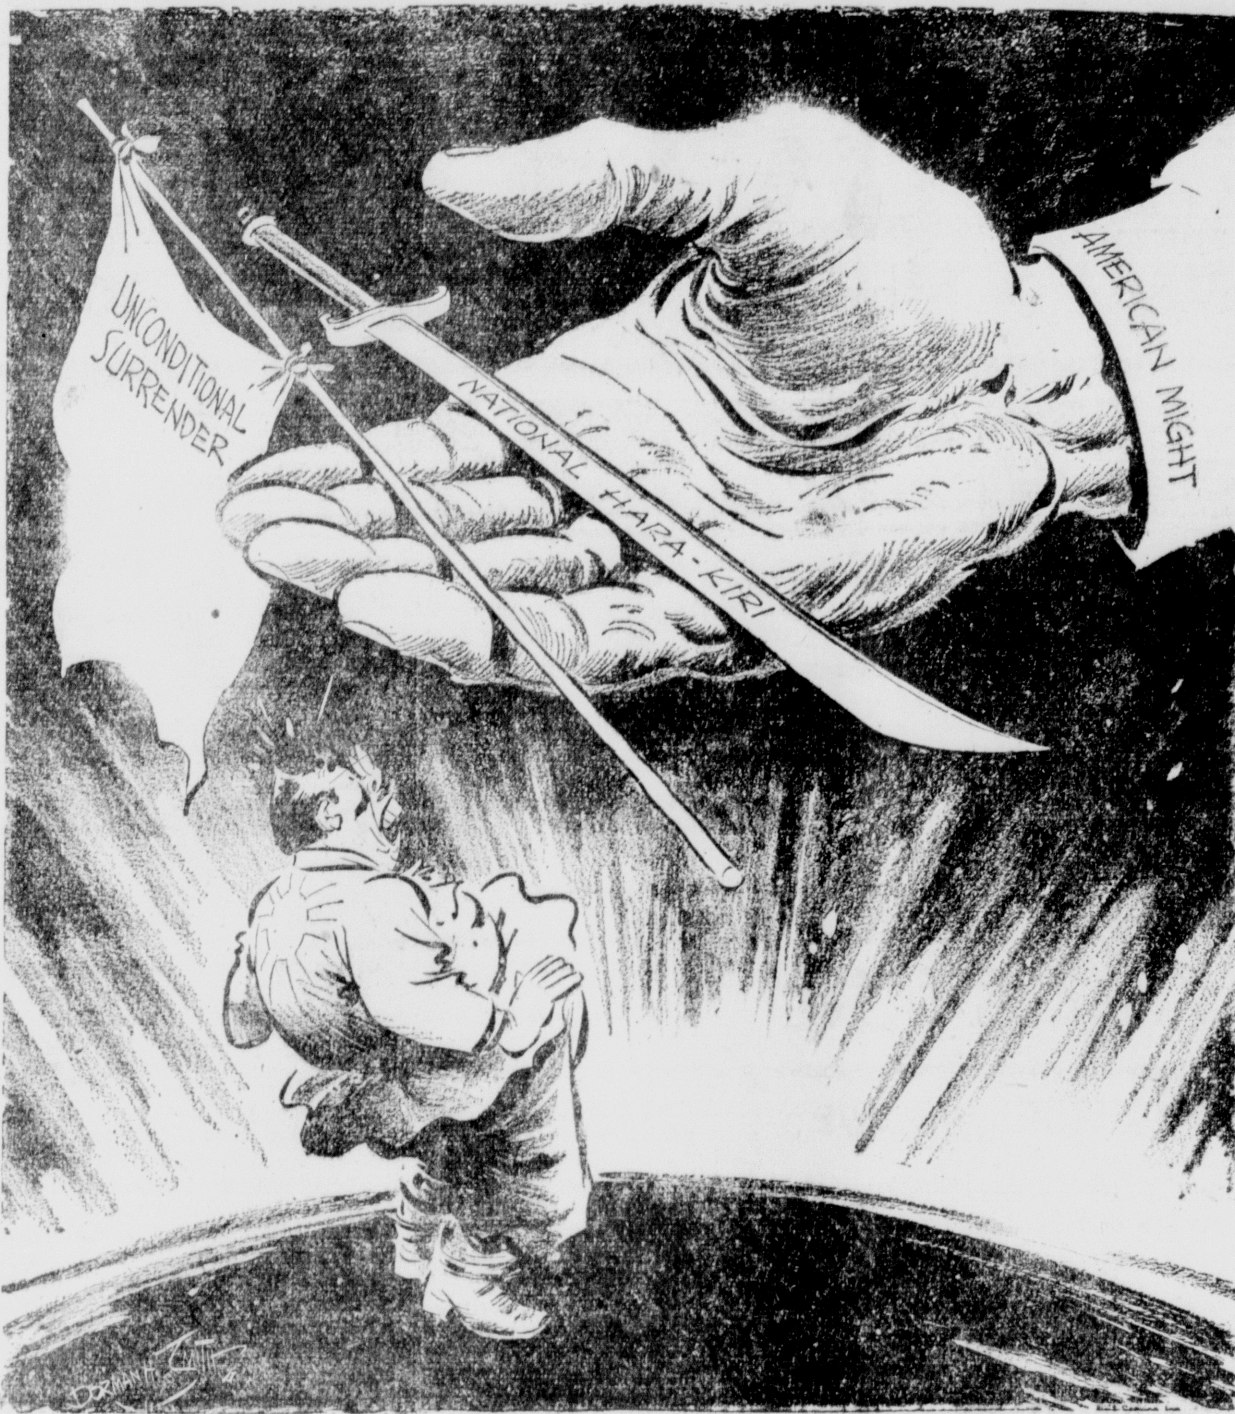

"An Allied effort to stage an invasion of the main Japanese islands before the blockade has been tightened and prolonged, and until bombing has cut more dangerously into home production and morals is not to be expected."

The Sunday evening community worship service at Beaty school will give many in the community their first opportunity to hear the Rev. Milton G. Perry, new preacher at the First Baptist church. These services, to which the public is cordially invited, are providing much religious inspiration to large crowds attending them.

An ad offers a woman a job in an orchestra playing second fiddle. They just don't come that way!

According to A. P. dispatches Friday the 13th is proving just another unlucky day for Japanese industries and airfields.

New Comic

It's a rollicking laugh feature in which the pet peeves of our enlisted men are lampooned and caricatured by a man who is on the ground floor—a Marine Sergeant. The boys in the Pacific have been reading it for many months, in THE LEATHERNECK, magazine of the Marine Corps. With them it's a popular favorite! You, too, will enjoy following HASHMARK.

According to A. P. dispatches Friday the 13th is proving just another unlucky day for Japanese industries and airfields.

### WHAT IT MEANS

By CHARLES C. HASLET

WASHINGTON.—Experts in the Agriculture Department say the Office of Price Administration's drive to obtain more equal distribution of meats by channeling more of it through federally inspected plants is accomplishing results.

OPA recently clamped on non-federally inspected plants an order permitting them to slaughter only 75 per cent of their 1944 production of beef during 1945 and only 50 per cent of the number of hogs.

This was designed to divert more meat to federally inspected plants and to obtain more equitable distribution and curb black market activities.

Meats from non-federally inspected plants cannot move in interstate commerce under federal laws and the government cannot purchase it for the armed forces or any other government use. Hence these meats are consumed principally in the localities where the non-federally inspected slaughterhouses are located.

About 72 per cent of the meat slaughtered in 1944 was inspected under federal regulations. Total meat production for this year is estimated at 22½ billion pounds, nine per cent less than last year's record output. Department officials believe a greater proportion of it will be inspected than last year.

#### How It Works

Here is how federal inspection works:

The packing plant or the slaughterer applies for federal inspection of the meat. Veterinarians or lay inspectors paid by the federal government, are assigned to the plants.

To pass inspection the plant must have good sanitary facilities.

### YEARS AGO IN WARREN

Interesting Items Taken From The Warren Evening Times

#### In 1925

Ralph Gregory, Railroad street, Clarendon, luckily escaped injuries when the car in which he was riding went out of control and rammed into a deep ditch near Clarendon.

The Morning Mirror and Evening Times will sponsor a contest whereby all boys under sixteen years of age may participate and be eligible to get free tickets to the 101 Ranch Wild West Show, to appear in Warren soon.

Warren united in paying tribute to Dr. Joseph T. Danforth at services conducted at the First Presbyterian church and conducted by the Reverend Raymond Kistler.

E. D. Wetmore was elected president of the Warren Library Association.

including plenty of pure water and adequate lighting. There are technical requirements such as to the height of rails on which animals are moved along after slaughter. They must be high enough to prevent the meats touching the floor.

The inspectors then check the slaughtered animals for diseases. Diseased meats have to be destroyed.

Latest available reports show that more than 1,000 plants, including most of the larger ones, are federally inspected. About half of these do no slaughtering, but meat processing only.

#### Some State-Licensed

OPA estimated about the time it ordered restrictions that some 15,000 slaughterers were licensed under non-federal (state) inspection arrangements, most of them small operators.

The Agriculture Department says 3,000 federally paid inspectors are checking the meats in the 1,000 plants.

"Any reduction in slaughtering in non-federally inspected plants, naturally drifts toward federally inspected plants," said one official of the WFA marketing services.

"It may take a little time to get adjusted under the OPA order. Eventually we hope to see all meats inspected by government, state or city to insure an uncontaminated supply."

Others elected were: vice-president, C. J. Crary; secretary, R. G. Chapel; and treasurer, W. F. Messner.

Warren county is one of the twelve counties in the state in which an antlerless deer season of three days will be permitted. One deer per hunter, and six per camp will be the limit.

## Washington In Wartime

By JACK STINNETT

WASHINGTON — The end of this war is going to see a spread of Yankee enterprise—in person—and a spread of personal supervision of Yankee capital to all four corners of the globe.

There's nothing official on it yet—the War and Navy Departments report they have been a little too busy with other matters to go around making surveys of service men's postwar plans—but it's a frequent topic of discussion here.

So many boys have signified their desire to settle in Alaska that Alaska is visiting or working here, express alarm. It's not that they don't welcome development, new blood and new enterprise. It's fear that the Alaska fever will be caught by thousands who have no idea of the limitations and hardships ahead of them. One Air Corps lieutenant who spent two years there told me he was going back for good as soon as he is discharged, but is well aware of what Alaskans mean when they express this fear.

"There's gold in them thar hills, all right," he said, "but anybody who thinks it's not going to take a lot of digging to get it out is freezing his toes to the knees before he leaves home. It's just that I love the country and am willing to work hard to live there."

THIS same holds true, in a way, for Hawaii and the South Seas. Tropical fevers weren't the only kind some of the boys caught in the tropics, no matter how sick most of them got of the stinking, dripping jungles.

South America and North Africa are other horizons that have been

opened to the Yanks. Many of them see opportunities there more attractive than going back to clerking in the corner grocery or bucking the brutal competition of New York or Chicago.

The American Trucking Association here has two rather remarkable requests on file—one from a soldier in our occupation zone in Germany, the other from an American in China. Both asked the same thing: Would the association explore for them the possibilities of financing equipment and getting U. S. government hauling contracts to get their own trucking lines started in those respective countries? ATS is exploring. In China, at least, the opportunities are great—if the Chinese like the idea.

ON THE more nebulous side is the fact that thousands upon thousands of Yanks have married girls in Australia, England, Scotland, north Ireland and France. Before it's over, there will be marriages in Germany too.

From these countries there have been only a trickle of war brides so far and discharged husbands already are clamoring to go back as civilians to join spouses stranded by the lack of space on passenger ships.

Although the number is comparatively small, there also are to be considered the WAVES and WACs and other gals of our own who have married up with the boys in uniforms of other lands. They'll have a hand too in spreading Yankee customs and culture through half a dozen countries.

The United States, in postwar years, will still be worrying about immigrants, but it's a safe statement that probably never before in history will it have had so many emigrants.

## Stray Leaves From Notebook Of Reporter About Town

Congratulations Clyde Beatty! You have undoubtedly the cleanest show that has ever shined in Warren. It was with real pleasure that women and children attended your two performances here yesterday. Neither a catch penny or gambling device on the "wiggling girl" exhibitions that are so often found with tented shows. And the program under the big top was exceptionally meritorious and the heavy applause was due to you and your group of excellent performers who have assembled.

It is to be regretted that Warren was suffering from a "circus hangover" due to the appearance here of the Miller Brothers outfit which left a stench in the nostrils of the circus fans and burned up the town for many a day. But as you know such things happen and this time you were the goat.

Warren people who attended were pleased. Today in homes, stores and shops the general topic of discussion was the Clyde Beatty Circus and let me tell you that when you come to Warren the latch string will be out and a real community welcome awaits you.

One of the boys of Warren who enjoyed the visit of the Beatty

Shows here was Knute Olson, of North Warren. Knute is a tuba player and he has tramped miles aplenty with circuses. Back in the days of the Jones Brothers Show Knute packed his horn and headed away to view the landscape over and blast out dulcet tones from his big horn. Later he finished his circus career with the Ringling Brothers and Barnum and Bailey shows. Yesterday he met up with a couple of the Beatty band boys with whom he had tramped, Carl Berggren, tuba player, and Roy Melvin, cornet player, two old timers who have blared out music with circus bands for many years.

Postmaster James K. Bell was among the circus fans who enjoyed the show yesterday. Commenting on the performances this morning Mr. Bell said "It's wonderful to think of a show that size being transported about the country by truck. Moving such a large amount of paraphernalia is a tremendous task. This show was really far and away above the average and when one stops to think that there are a two hour performance is presented with dozens of acts and scores of performers the admission price is comparatively small. Thinking back to the old days of vaudeville one never hesitated to pay \$2 or \$2.50 to see eight acts and the Beatty Shows has some remarkable entertainment for about the pre-war price which was increased considerably by the tax imposed due to the war. It was really a first class show."

Feeding of the animals was a big thing for hundreds yesterday afternoon following the performance. The big chunks of meat, the roars of the lions and tigers and the squeals of the bears all made a cacophony of noise and sound. The animal men hurried about their duties and plenty of water was placed in the dens of the animals. Water is an essential on the hot days and the big top on the menagerie tent was not put up yesterday due to the fair weather so that the sun beat down on the dens and cages. The elephants seemed to enjoy the heat and they rocked contentedly as they stuffed their cavernous mouths with hay and swung sod and dirt to their broad backs to chase away the festive flies that tickled even through the flabby hide.

There is really something about a circus that "gets the folks". It may be the flapping tents, the flags idly stirring in the breeze, the gay banners of the side show, the lusty cries of the cotton candy vendors, the importuning of the boys with the balloons, whips and flying birds but what ever it is the American public loves a circus.

So again Mr. Beatty you are welcome in Warren and the hundreds that enjoyed your show here yesterday gives best wishes for a successful season and hope to see the big trucks blazoned with the wording "Clyde Beatty's Trained Wild Animal Shows" rolling back into Warren next year.

## BARNES

Herman Gilson of Silver Creek, N. Y., was a guest at the home of Mr. and Mrs. H. S. Roberts Saturday and Sunday. Mr. and Mrs. Roberts, C. E. Jeffords and Otto Barnes accompanied him home, stopping enroute for cherries.

C. E. Conquer and son, George Mendell, are coming along fine with the building of their new barn. They expect it will be ready to store next winter's hay and grain crops.

Mr. and Mrs. Donald MacMartin and son, Teddy, of Corry spent Wednesday, visiting at the home of Mrs. W. C. Hoyer and Mrs. F. J. Titus. Mr. MacMartin returned to Corry that evening, but Mrs. MacMartin and Teddy remained for a longer visit.

### Island Park Is Scene of Johnson Family Gathering

The 51st reunion of the descendants of Magnus Peter Johnson was held at Island Park at Youngsville with an attendance of about 90. In spite of rationing, there seemed to be plenty of good things to eat, including the ice cream served during the afternoon.

The business meeting was conducted by the vice president, Mae Wood, with the following officers elected: President, Mae Wood; vice president, Beulah Holcomb; secretary, Iva Holcomb.

Since many are working on Saturday and attendance was so small, it was decided to try for one year the experiment of meeting on the last Sunday in June, instead of the long-established last Saturday, and to meet again next year at Island Park. A committee consisting of Mr. and Mrs. C. W. Edgett, Mr. and Mrs. A. L. Brown, Mr. and Mrs. Chase Johnson was appointed to take charge of the grounds and supplies, and the present program committee, Phyllis Martin, Carmen Johnson and Jeanette Bowen, was reappointed.

The program was announced by Phyllis Martin and a special feature was the reading of the family honor roll, which shows 22 members in the armed forces.

The genealogy record showed one marriage, Robert Caldwell and Elizabeth Lucille Smeltzer, February 13, 1945. Five births, Keith Wayne Bender, July 10, 1944; Susan Alice Hannah, July 12, 1944; Virginia Sue Dunham, July 31, 1944; Donald Ivan Wood, May 23, 1945; Eugene Caldwell, June 2, 1945. Ina Peck Johnson was reported to have died August 17, 1944, and one service man, Lt. Arthur Lindell, was reported missing in action since December 26, 1944.

Members were present from Sinclairville, Celoron, Jamestown, N. Y.; Lanedr, Russell, North Warren, Warren, Smith's Corners, Starbrick, Spring Creek, Corry, Columbus, Spartansburg, Grand Valley and Pittsburgh.

### Local Women Are Named To Offices In Auxiliary Unit

American Legion Auxiliary members held their July business session following a tureen dinner at the Legion Home. Mrs. Wilton Witz, president, gave a report of the Inter-county Council meeting held last Saturday at Kane, when three Warren county women were elected to council offices. They were Mrs. Richard Hansen, Warren, reelected secretary; Mrs. Arthur Streeter, Youngsville, first vice president, and Eva Brown, Sheffield, treasurer.

Named as delegates to the American Legion Auxiliary convention were Mrs. Witz, Mrs. E. Willard Smith and Mrs. Theo Fox, with Mrs. Marvin Wilkins, Mrs. C. D. Cannon and Mrs. Claude Hoover, alternates.

Election of a secretary and assistant for the local unit resulted in choice of Mrs. Richard Hansen and Mrs. C. D. Cannon.

### Rites Performed For Service Couple

Mr. and Mrs. Edward A. Johnson, of Pittsfield, announce the marriage of their daughter, Carolyn M. Johnson, SC 3/6, to T/Sgt. George F. Collins, son of Mr. and Mrs. Norman D. Collins, of Milford, Del.

The ceremony was performed June 23 by the Rev. John De Chant, of the Presbyterian church of Milford.

Mr. and Mrs. Collins, both stationed in Boston, spent a brief leave at the Johnson home in Pittsfield and were honored guests for a family party of twenty-four.

### Social Events

**EMICK AND MILLER RITES ANNOUNCED**

Fred B. Miller, of Tidioute, announces the marriage of his daughter, Beatrice K., to Pfc. R. Gilbert Emick, son of Mr. and Mrs. Charles Emick, of West Hickory.

The ceremony was performed at 3:00 p. m. July 2 in St. Paul's Methodist parsonage at Oakland, Md., with the Rev. Minor Sprague officiating. Attendants were Mr. and Mrs. C. G. Huselton, Jr., also of Tidioute.

Pvt. Emick has recently returned after 34 months of overseas service.

### Plans Progressing For 20th Reunion Of Class of 1925

Plans are rapidly nearing completion for the 20th anniversary reunion of the Warren High School Class of 1925, and cards were sent out yesterday to notify members of the event.

The party will be held with dinner at six o'clock Monday evening, July 23, at the Boy Scout camp, Jefmore, on Jackson Run road. Return cards are to be in the hands of Sheridan Brown no later than Tuesday, June 17, because of the difficulties to be encountered in planning food for a group of this size.

Mr. Brown and William E. Rice are handling general arrangements for the gathering and Mrs. T. H. Conway has the task of contacting members. She would like any information on the present whereabouts of the following class members she has been unable to contact: Hazel Schuler, Ruth McDowell, Margaret Underwood, Margaret Richardson, Helen Wright and Romaine Kraft.

### WOMEN OF MOOSE

The proposed meeting of Warren Chapter, Women of the Moose, was held Wednesday evening in charge of Senior Regent Mary Kirberger. Attendance prizes for the evening went to Alice Kiser and Vernice Thomson and a birthday lunch was served to honor Florence Magee and Hilda Anderson.

The next regular meeting will be Wednesday evening, July 18.

### ZONTIANS PLAN ANOTHER PICNIC

Holding their regular luncheon-session at the YWCA activities building Thursday noon, members of Warren Zonta Club made plans for a picnic to be held July 26 at Isabel Beck's cottage. On the committee will be Mrs. Beck, Alice Mead, Wilda Peel and Ethel Hodges.

### FRIENDS MAY SEE CHAUTAUQUA PROGRAM

A copy of the Chautauqua Institution program for this season has been secured and may be consulted in the social department of the Times-Mirror.

### Ghering Gathering At Chapmanville

Descendants of Christian and Conrad Ghering, who came to America over 100 years ago and settled with their families in Cherrytree township and Dempseytown, held their 37th annual reunion with Mr. and Mrs. J. N. Holden at Chapmanville.

Approximately 75 were present from Youngstown and Norwalk, O.; New Castle, Union City, Warren, Tidioute, Franklin, Dempseytown, Sheakleyville, Greenville, Townline, Wallaceville, Diamond and Titusville.

At 1:30 p. m. a basket dinner was enjoyed by the entire group. Later, a business meeting was held, with election of the following officers: Ward Holder, president; Mary Ghering, secretary-treasurer; Mrs. Nirma Ghering, J. C. Ghering and Rev. J. Norman Holder, program and sports committee.

Mrs. Mabel Ghering Granquist, of Warren, who has written "The Ghering Family History", presented it at the reunion this year.

William Ghering, of Greenville, was the oldest person present and David, seven-month-old son of Mr. and Mrs. Charles Ghering, Jr., of Franklin, the youngest.

Mr. and Mrs. Charles Ghering, Sr., of Franklin, will entertain the next family reunion on the last Saturday in June, 1946, at the Ramsdale Rock Garden.

## Thousands watch the face grow younger looking with Endocrine

Sounds too good to be true, doesn't it... that ENDOCREME for eight years now has helped thousands of women regain a more youthful skin of face and throat? But it is true... true to a degree hitherto thought impossible. Yes, ENDOCREME can aid most women to improve and beautify the skin itself, not merely its superficial "look." Only ENDOCREME contains ACTIVOL®. This ACTIVOL® is a scientific replacement for woman's own natural, skin-vitalizing substance. When you apply ENDOCREME, it is absorbed by the skin to help restore the normal growth of cells and tissues. This aids the skin to become fresher, softer, more radiantly youthful again. ### Girls' Softball League Plans Two More Rounds

The girls' softball league held a meeting at Beaty Field last night to complete plans for the second round, which will open next Tuesday.

Election of officers for the league was not held because all teams were not represented. The officials decided, however, that there will be two more rounds played before the season ends. Thomas Coupling and National Forge will meet in the first game, and the Struthers-Sylvania July 19th game has been postponed.

## SOCIETY

## VFW Auxiliary Is Planning Outing

President Helen Mason was in charge of the regular meeting of the VFW Auxiliary held last evening in the post rooms and read a report of the department encampment held at Harrisburg on July 7.

The historian's report for the year was given by Mabel Vesling and Zella Wood responded with appropriate remarks when she was presented with a past president's pin.

Plans were completed for a picnic to be held July 21 at the Leo Schuler home in Pleasant township, with Mabel Phillips, Elsie Hollabaugh, Marie Belton and Helen Mason as the committee. Each member will bring a well-filled basket and her own table service. In case of rain, the committee states, the affair will be held in the post rooms.

Marie Belton, Olga Petersen, Zella Wood and Wilma Nelson were named as the daughters' committee, and Vera Taft, Ida Taft and Nellie Hoffman as program committee for the next meeting.

Concluding the evening, refreshments were served.

## Voice Recital By Mrs. Jack's Pupils Is Well Received

A capacity audience gathered Thursday evening to greet the pupils of Elizabeth O. Jack in their voice recital given in the Winger Room of Grace Methodist church. The program was a very artistic and enjoyable one, each singer giving her songs with ease and confidence, beauty of tone, pure diction, flawless breath control and phrasing.

Those participating were Ione Maze, Frances Peterson, Ruth Lindquist and Charlotte Smith. Quartet numbers were especially well received, the singers using as their encore "Prayer Perfect" by Stenson.

David Leidig, popular young flutist, never fails to please and was ably accompanied by his mother, Mrs. J. B. Leidig.

The singers were ably supported at the piano by Linnea Scott and Mrs. Jack.

## 90th Anniversaries Observed With Aid Society Party

The Ladies Aid of the First Lutheran church celebrated the 90th anniversaries of two of its members, Mrs. Charles Schimmelreng and Mrs. Philip Huck, at the parish house on Thursday afternoon. Each was presented a corsage of lavender orchids.

Lillian Hertz, sister of the former, and Carrie Armagost, of Clarendon, sister of Mrs. Huck, were among the guests. It is of interest that several other members of the unit are also having anniversaries within the month.

There was a devotional service led by the president, Mrs. Emil Johnson, with prayer by Dr. H. A. Rinard. Ruth Satterlund, accompanied by Dorothy Engstrom, sang "Sing Me to Sleep" by Edwin Greene and "Forgotten" by Eugene Cowles. Mrs. Huck recited two poems, "Savior Mother" and "Bachelor Sale", and Mrs. Schimmelreng told interesting events of the Ladies Aid a half-century ago. Concluding the afternoon, refreshments were served from an attractive tea table.

## YOUNG PEOPLE'S EVENTS

All young people having acts scheduled for the community recreation night floor show on July 20th are asked to be at the Y. M. C. A. this evening at seven o'clock. A number of novelties are being planned by the Community Recreation Committee, including singing, dancing and comedy specialties. Joan McDonald is a new member of the committee who has been doing a good job assisting with the next floor show.

The decorating committee, headed by Georgia Spinney and Betty Lou Hook, has also called a meeting for this evening. The young people will block out their plans in the basement committee room of the public library. The time is 7:30.

## SUNDAY MUSICALS AT FIRST METHODIST

At five o'clock Sunday afternoon a special musical program will be presented in First Methodist church for the pleasure of all interested in fine music. Soloists who will be heard in several selections each will be Loren Wright, Clement Wolstencroft, Florence Stevens and Monroe Marshall. Organ music will be by Signe Nordgren, organist at the First Methodist church in Kane; Richard Kerr and Byron Swanson, of Warren.

## Can It With Syrup

Confirmation by the local war price and rationing board of rumors that there will be no canning sugar quota for the month of July, just at the season of berries, cherries and early peaches, has caused much grumbling on the part of housewives and the repeated query: What AM I going to do? While the problem is, indeed, a difficult one, it is not without a solution. Tests for consumer preferences have proven that thoroughly satisfactory fruit-canning can be done by using part sugar and part corn syrup.

The amount and type of corn syrup varies for different fruits, so the canner must be sure to use it only as directed in tested recipes. For the convenience of those who may not have such recipes at hand, here are some suggestions:

Start water boiling before you prepare fruit. Pot must be large enough to allow the water to cover the jar tops by at least two inches. Keep jars off bottom of pot by means of a rack. Keep pot covered to prevent escape of steam and to keep water boiling during entire processing time. Start to count the time when the water boils again after the jars have been put into it. Reduce heat just enough to prevent jars from bumping around, but not enough to stop the water boiling.

**Blackberries**  
16 quarts blackberries 1 cup light corn syrup 3 cups sugar  
Wash and drain the berries. Spread in two large, shallow enamel pans. Pour syrup and sugar evenly over all. Stir carefully with a spoon. Let stand 20 minutes to draw out juice. Transfer one pan of berries to saucepan. Cook over low heat about 2 minutes, until sugar is just dissolved and berries heated through. Stir carefully.

Fill hot jars to within 1/2 inch of top with berries and juice. Add no water. Heat and pack remaining berries as above. Seal jars immediately according to type of lid and jar. Process for 15 minutes in boiling water bath. Makes 8 quarts.

For any fruit except berries you can make the syrup ahead of time. This is always a mixture of corn syrup (light is preferred for some fruits, dark for others), sugar and water or fruit juice. Quantities vary for different fruits, but the procedure is the same. Put the ingredients together, bring to a boil, remove from heat and pour into a jar. Heat the syrup before using it to pack fruit.

**Cherries**  
16 quarts cherries 1-3 cups light corn syrup 5-2 cups water 3-4 cups sugar  
Wash cherries and drain on towels. Stem and pit. Pack immediately into hot jars, arranging compactly without crushing. Fill jars to within 1/2 inch of top, using 1 cup syrup for quart jars, 1/2 cup for pints. Seal immediately according to type of lid and jar. Process for 20 minutes in boiling water bath.

**Spiced Peaches**  
3 cups sugar 6 pounds (about 36) small peaches  
3 cups light or dark corn syrup 6 pieces stick cinnamon  
2 cups vinegar 6 whole cloves  
1 piece ginger root  
Bring corn syrup, sugar, vinegar and ginger root to a boil. Drop peaches in boiling water 1 minute, then in cold water. Peel peaches, leaving them whole, and drop into boiling syrup a few at a time. Cook until tender. Let peaches stand in the syrup overnight. Stick a clove into stem end of peach. Pack into clean hot jars. Stick a small piece of stick cinnamon in each jar. Boil down syrup until it measures 3 cups. Fill jars to within 1/2 inch of top with hot syrup, using 1/2 cup syrup to each pint. Seal according to type of lid and jar and process 20 minutes in boiling water bath.

## Church Notes

At the eleven o'clock service in Trinity Memorial church on Sunday, Rector Beecher M. Rutledge will continue his seven-minute talks on "The Revelations of St. John the Divine."

There will be special choir music for the Sunday morning service in First Baptist church and Rev. Milton G. Perry, pastor, will preach on the subject "The Living Church—Its Task." In the evening, Pastor Perry will bring the message for the community service in Beatty school auditorium.

## Church Notes

Many persons in the community will welcome announcement that the Rev. Milton G. Perry, new pastor of First Baptist church, will be the speaker for the Sunday evening worship service in Beatty school auditorium. The meeting begins at 7:30 o'clock and his topic will be "Old Paths." Music will be by the First Baptist choir. This will be the first opportunity given the public of hearing Mr. Perry and a large attendance is anticipated.

Rev. Hans Pearson announces his Sunday morning topic in Moriah Lutheran church at Ludlow will be "Christian Experiences," also that the Lutheran Circle will meet at 8 p. m. next Wednesday and that a sunrise service is scheduled at Wildcat Park at 7:30 a. m. Sunday, July 29. Members will have breakfast following the service.

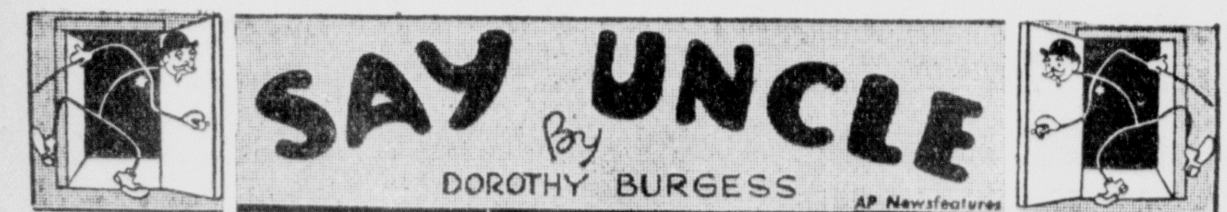

Rev. E. R. Pires, Ph. D., of Beaver, Pa., is summing at Chautauqua Institution, will be guest speaker at the Sunday morning service of First Presbyterian church.

The gospel lesson for the Sunday sermon at the morning worship in St. Paul's Lutheran church will be the account of the Transfiguration of Christ, according to St. Matthew, chapter 17. The topic for the sermon will be, "The Importance of the Transfiguration of Christ." The congregation joins in the community evening service at Beatty school.

Rev. Rodger E. Montague will be guest speaker at 11 a. m. Sunday in First Evangelical church. He and his wife were here last January for a two-week evangelistic campaign and will be remembered by many as accomplished musicians. They are now engaged in a three-week series of meetings at Pine Ridge Camp in Clarion county and will be here for but one service. All are invited to hear them in song and sermon.

"Christian Experiences" will be Pastor Hans Pearson's theme for the Sunday morning sermon in Bethany Lutheran church in Sheffield, while for the Swedish worship at 7:30 p. m. his topic will be "The Glorified Christ." Meetings of the coming week are scheduled as follows: Tuesday, 6:30, Young Women's Missionary Society will picnic at Oberberg's Garage moving to the church in case of rain; Thursday, 2:30, monthly meeting of the Ladies' Aid in church basement, when all members are asked to bring their towel gifts for the church; Friday, 8:00, Luther League meeting at church.

The Rev. Ralph Richardson, Conneautville, will be guest preacher at Grace Methodist church Sunday morning. Mrs. Clara Barraro will sing "The Ninety First Psalm" by MacDermid and a mixed quartet composed of Marian Campbell, Lucella Hammerhook, Russell Templeton and W. C. Carlson will sing "A Prayer" by Edwards, Miss Linnea Scott will play two movements from Mendelssohn's "Second Sonata," "To a Wild Rose" by MacDermid and "Allegro con brio" by Mendelssohn for her organ numbers.

Chapter 27  
USUALLY by nine o'clock in the morning, Winston Manor was well started on its daily routine and the breakfast dishes washed and put away, but such was not the case this morning. John, who was out getting his morning ride before breakfast, had overslept, due to the doctor's two tablets. Mr. Lo had also overslept, due to her harrowing night's experience and the fact that she had passed out a second time immediately after Madge had successfully crawled out of her bedroom. Marlo was about to spring out of bed and make a dash for John's bedroom and his protective arms, when the warning sign of Uncle Louie's formula worked again. Consequently, the combination of John's confession of love for Madge on the previous night and a fast-developing hatred for the spooky old house, plus the dizzy warning signal of Uncle Louie's formula, egged John into a furious anger. It was very obvious as she slammed out of the bedroom into the long, gloomy hall that she was on the war path, hunting sculps.

Just at that moment the basement door flew open and a very brilliant Uncle Louie emerged. His eyes nearly twinkled themselves out of their sockets as he gleefully approached Marlo.

"I've finished it! I've finished it!" he cried. "I've finished my new formula!"

"And your last one nearly finished me last night," she said sharply.

He forced a naive expression and asked, "You mean the warning signal worked?"

"Look, ray of sunshine," said Marlo nastily. "I'm sick and tired of this body and this layout!"

"So soon?" he asked, pretending surprise.

"I want to get back into my own body!"

"But, my dear," he said, "that is entirely up to Madge."

"What has she got to do with it?"

"Didn't Madge tell you about having in her possession the one and only antidote?"

"Hell, no!" exclaimed Marlo. "Wait a minute; let me get this straight. Do you mean to tell me that the effects of this formula of yours won't wear off in a week?"

Uncle Louie opened wide his baby-blue eyes and asked in feigned astonishment, "Is that what she told you?"

Marlo neared him menacingly. "I want the truth," she demanded. "From you!"

"The effects of the formula, my dear," he said, "will last until you and Madge decide to drink the antidote together. Then you will both automatically return to your rightful bodies."

"Look," she said. "I'm not such a bad egg that you can't help me get out of this mess."

"Even I, my dear," he said with assumed sadness, "am powerless without the antidote."

"But can't you whip up another?" she pleaded.

"Yes, I can," he smiled impishly, "in another forty years."

"That's right," she said, completely sunk; "I forgot."

"But I'll tell you what I can do," he said encouragingly.

"What?" she brightened.

"This new formula of mine will hurry up the situation."

"It will?"

"Definitely, my dear, providing—" he studied her as he lugged at his snow-white goatee, "providing you are completely through with John."

Marlo flared. "Not by a pig's eye am I through with him, or his double-crossing wife!"

Uncle Louie shrugged pleasantly. "Then I'm afraid I shall be unable to help you."

"Just you wait till I tell Mrs. Fancy Drawers that John loves her! Then," she laughed, "I'll have the pleasure of refusing to drink the antidote!"

"Ingenious, to say the least, my dear," then he touched a very vulnerable spot by saying, "in the meantime, what will become of your career?"

"Leave my career out of this!" she blared. Then she turned and strode furiously out to the terrace. Uncle Louie giggled as he blithely tiptoed to the open door and peeked in Marlo's direction. He saw Marlo seat herself at the breakfast table, directly in front of the morning newspaper, which contained Felix Wilder's article. No matter how you figure, young lady, thought Uncle Louie, Madge still has the upper hand. He grew excited as he saw Marlo pick up the paper and, as was her habit, start scanning the theatrical section first. To his delight he saw her body stiffen and a piercing shriek broke the morning stillness as she reacted to the article. Then he saw her jump to her feet and tear the newspaper into shreds.

"She can't do this to me!" Marlo cried aloud. "I won't let her!" She flung the paper down and headed for the house.

UNCLE LOUIE, like a woodland nymph, skipped to the staircase, half way up he slowed down to a convenient, leisurely climb for Marlo's benefit. He turned when Marlo tore into the hall and called to him.

"Uncle Louie! Uncle Louie!" she cried, breathless with rage and anxiety. "Get your bonnet on, we're driving into town immediately!"

"We are?" asked Uncle Louie, feigning surprise.

"Mrs. Winston is rehearsing my part in 'Crimson Angel!'"

"She is?"

"I've got to stop her!"

"But, my dear, I thought you wanted to continue on as Mrs. Winston?"

"Do you think I'm going to let her ruin my career in my body?" she stormed.

"Then," said Uncle Louie, with twinkling eyes, "I presume you've changed your mind about drinking the antidote?"

"You're damned tootin' I have! If you think I'm going to stand by and let her ham up my career and make a laughing stock out of my name, you've got another think coming!"

## Superstitious Duck Unlucky Date Today

For the second time this year the calendar shows this to be Friday, the 13th, when ill luck is supposed to duck the footsteps of the superstitious. There will be no walking under ladders, no black cats will be allowed to cross the path of those who quail before the signs and omens of the direful days.

But to the care free, devil may care folks who don't give a tinkers darn for any one of the old saws its just another day. They will go merrily on their way finding the day just like any other and won't let the foreboding of the fussy folks worry them for a minute.

## Wind Charger For Farm Radio Is Recovered

Officers from the office of Sheriff L. C. Linder yesterday placed Edward J. Baran, who resides on Matthews Run under charge for the theft of a wind charger. The wind charger is a bladed fan turned by winds which re-charge batteries for radios used on farms. It was alleged to have been taken from the farm of Albert J. Morris, of Youngsville, who owns a farm on Matthews Run where the charger was used.

Search at the Baran home disclosed the wind charger and after being confronted with it Baran entered a plea of "guilty" when arraigned before Justice of the Peace Tracy Greenlund here Thursday afternoon. In default of a \$10 fine and costs Baran was sent to jail to serve a 14 day sentence.

## Storm Damages More Vessels Than Jap Navy

(From Page One)

Battleships such as the Massachusetts have a low waterline and decks are awash constantly in heavy seas.

Destroyers, in a high sea, pitch and toss like corks and sometimes take water into the stacks.

The Nimitz report on the June 5th typhoon said:

"The majority of the ships damaged have been repaired and returned to action."

The first sign of this storm was observed June 1 in a weak cyclonic circulation about 250 miles north of the Palau Islands. Planes were assigned to maintain a careful observation of the disturbance moving northwestward at about ten knots.

Philippines based plane crews reported June 3 that the disturbance promised to develop into a typhoon.

During June 4 the storm appeared heading toward the Ryukyus and on the verge of dissipating.

The storm moved on to a point about 300 miles south of Okinawa and broke up.

Nimitz' announcement then explained that in the course of breaking up of the primary typhoon it was replaced by a second and more violent one.

**IN MEMORIAM**

In loving memory of Wallace L. Mauk, killed in action one year ago today, July 13.

We are thinking of you today Wallace

Thinking of you and the past. Picturing you in our memory, Just as we saw you last. We do not need a special day To bring you in our mind. The days we do not think of you Are very hard to find. If all the world were ours, We would give it, yes, and more, To see the face of our dear Wallace Come smiling through the door.

Sadly missed by Mother, Wife and Sisters.

## Auxiliary Benefit For Naval Hospital

Proceeds from the card party to be held in the American Legion Home on Tuesday evening, July 17, will be added to a donation by the American Legion Auxiliary for the naval hospital in Philadelphia.

This unit consists of an automatic phonograph mechanism and a system permitting of broadcasting of radio, phonograph and record pickup by microphone of program originating in the hospital.

With contributions such as the Warren unit is making from Legion posts and auxiliaries throughout Pennsylvania, it has been possible to present 800 headsets to the naval hospital this week.

The committee in charge of Tuesday's party hopes to have a good crowd, that Warren's share in this project may be a generous amount. Those planning attendance are asked to phone table reservations to 178-J no later than Monday night.

## Kellettville Old Home Day And Picnic

July 28 has been picked as the date for the holding of the Old Home Day at Kellettville. The affair as usual will be held in the old church grove and arrangements are being made to take care of a large crowd. The affair will be in the nature of a basket picnic and community reunion.

Kellettville for many years was a busy lumber town but with the building of the Tionesta flood control dam many of the properties were taken over by the U. S. Government and the old town is rapidly becoming a thing of the past. However there are scores of cottages and cabins located in the vicinity by those who enjoy fishing in the big lake made by the backing up of water by the dam.

Scores of the folk who made their home in the vicinity during years past are expected to attend and the evening promises enjoyment to many.

## Commission On Cancer To Organize

Pennsylvania will have one of the finest organizations in the nation within a few months for the battling of cancer, the most dreaded disease now assailing mankind. At a meeting of the Cancer Commission held at Harrisburg this week presided over by State Senator L. E. Chapman, of this city, the group discussed the program to be followed in setting up the work throughout the state. Officers were discussed but no action was taken.

The commission is composed of the most learned men in the state on the subject of cancer and among them is Dr. Elmer Hess, of Erie who has had a wide and varied experience with the disease of which he had made a thorough study.

It was planned to carry on a publicity campaign in the state in an attempt to rouse the public to the fact that early detection of the disease makes it curable and that prompt examination by a physician may save lives. This will be under way soon.

Senator Chapman and others taking a leading part in the battle on cancer will meet soon at Yale University where a research laboratory for the study of the disease has been a feature for many years.

The program for Pennsylvania encompasses a similar research laboratory and a number of clinics set up over the state.

## Pilot Lands Airliner After Sky Collision

Columbia, S. C., July 13.—(AP)—While the passengers prayed, the pilot of a crippled Eastern Airlines Transport brought the ship to an emergency landing in a Carolina cornfield yesterday after it collided with an army plane 3,000 feet up, killing two army fliers and a two-year-old boy.

The child was one of 17 passengers aboard the Boston-Miami airliner, which went down 80 miles east of here. Four others, including the boy's mother, Mrs. A. E. Williams of Miami, Fla., were reported seriously injured, and several were shaken up.

One of the passengers, Mrs. Annie Lee Moore Walker, 26, of Columbia, credited Captain G. D. Davis, of Miami, the pilot, with saving their lives.

She said she noticed the army plane "veering in toward us from our left" and added that "I think I saw it about three seconds before we crashed."

"Everyone was quiet and I believe I was in tune with them, because I'm sure we all were praying."

Newsman at the scene said the army plane exploded two miles from the point of collision, taking one occupant to his death. A second was killed in an attempt to parachute and the third flier was uninjured in his successful jump.

## New Type Car Is Assigned To Pennsy Trains

As was announced in the Times-Mirror yesterday the only Pullman car to be dropped from the east and west bound through trains is that which moved from Erie to Philadelphia. Cars will be carried from Oil City to New York and from Erie to Washington.

The type Pullman cars that are now being used on the local lines are all being taken over by the Government for the use of the Army in the transportation of soldiers. In their place other type cars will be assigned to the runs that pass through Warren.

The car that will be carried from Oil City to New York will have eight sections and five double bedrooms while the car which will be run in the Erie to Washington service will have eight sections, one drawing room and three double bedrooms.

Under the ruling of the ODT no extra Pullman cars can be carried and when the space in the two cars is filled there will be no more Pullman service available.

The Army's Motor Transport Service has doubled the tonnage in load capacity carried by its large Diesel units. Where formerly each truck was able to carry a 10-ton load, they now are able to pull an extra 10 tons in a trailer.

The Dirigo, launched in 1894, and designed by the Waddingtons of Liverpool was the first all-steel sailing ship.

# NFO's, Independents Meet In 2nd Series Game Sunday

Traffic Is Getting Heavy

## Craig Bennett Quits Forge; Will Hurl For 'Kids' At Wilder Field Opposing Dick Hines

Manager Emmy Morrison announced last night that Craig Bennett, young right-hander who recorded his third victory of the season last night in four starts, has dropped from the National Forge and will join the Warren Independents Sunday to oppose his former teammates in the second of the rival series between the two teams.

Bennett started his baseball a few years back in the City League when he and his father and a brother organized the Stoneham outfit. He entered service and was

discharged about a month ago being wounded in the European theater of operations.

Bennett limited Corry to only seven scattered hits and one run last night at the State Hospital and will be a valuable addition to the "kid" team. Sam Cosmano, Indies manager, said this morning that Bennett would do the chores on Sunday against the Forge.

The Forge holds a one-game advantage in the series, but if the Indies win Sunday it will be neces-

sary to meet in a third game. The NFOs captured an 11-3 victory against their opponents Wednesday at Russell Field, but had it not been for a big first inning the winners might not have had such an easy time.

Dick Hines will go on the rubber for the hosts against Bennett. He will be after his seventh victory when he faces the crew of youngsters mixed with a couple of veterans come Sunday.

One of the largest crowds so far during the season is expected to jam Wilder Field to watch the two teams battle and chatter back and forth. The Indies will be out to do everything in their power to upset the Forge combine, but the first game winners will not give up easily.

The "kids" will probably not be under the mental strain which they experienced Wednesday when they faced a bunch of hardened veterans for the first time. The Indies' biggest trouble is scoring runners and whether or not they will come through Sunday you'll soon find out.

Dick Pierce will call behind the plate and Red Swanson will umpire bases, gametime slated for 3:00 sharp.

The First Methodists go after their second victory in the second round tonight at Beatty Field when they tangle with the Thomas Coupling at 6:15.

Bob Check or Art Vandenburg is expected to take the mound for the Firsts, with Al Babcock receiving. For Thomas, the starting moundman has not been named, and Putnam will catch.

Tonight's game ends the second week of play in the second round.

**OLD-TIMERS' BATTLE**  
AUG. 19 AT CELORON

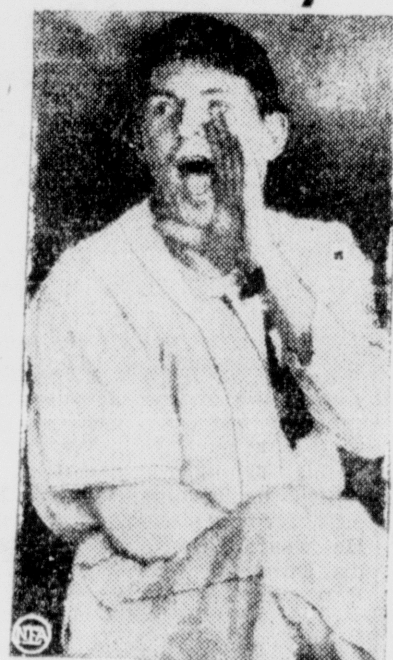

The annual Old-Timers' baseball game between old-time ballplayers of Warren and Jamestown will be played again this year, the first game at Celoron Park on August 19, and the second at the State Hospital on a date to be named later. Along with the game, at Celoron, there will be various sorts of races and other contests.

Joe Gardner heads the local outfit and is already lining up a crew to make the trip.

Before the war almost half of the wood pulp tonnage for paper manufacture, imported into the United States came from Sweden.

## Still Noisy

Karl Scheel, ex-Marine and now a White Sox pitcher, still flings taunts at opposing players despite rumpus in St. Louis, which saw him attacked by Brownie players. Manager Luke Sewell and three St. Louis players paid \$500 for their retaliation.

**"YES MAN"**

My name is Dorothy Baker. I'm the "Yes Man" at Personal Finance Co. . . that is I'm the one who likes to say "Yes" to requests for loans.

You see—I'm the manager of our office—the one who's responsible for building up our business. The more times I say "yes" to requests for loans—the more business we do. And since making Personal Loans of \$25 to \$250 or more is our ONLY business—that's mighty important to me.

Therefore, if you need extra cash at any time—whether a little for a short time or a lot for a long time—you can depend on my doing my best to say "yes" to you.

Next time you can use a loan give me a chance to say "Yes"—won't you? I'll consider it a favor. See me at Personal Finance Co., 216 Liberty St., second floor, over Lester Shoe Store. Phone 285.

**ERROR IN AD**  
Fruit jars listed in the Everett's Hardware advertisement in Thursday's issue are priced at 79c and not 59c, as was quoted.

**SPECIAL TRAINING**  
Privates J. R. Krupey, J. J. Mastrian and A. A. Vavrek, of the local State Police barracks, left early today for a three-day period of intensive rifle training at Indiantown Gap Military Reservation. Other members of the local force had like training over last weekend, returning Monday.

**APPLE TREES BLOSSOM**  
Branches on some of the apple trees in the orchard of John Bruce, near Sugar Grove, yesterday were reported as bearing new blossoms. The unusual condition was called to the attention of farm bureau men who said that it resulted from frost damage suffered at the usual blossoming season and that these branches were now coming into bloom with little likelihood that fruit would mature.

**USING TOO MUCH GAS**  
The Office of Price Administration has launched a nation-wide campaign to stop over-issuance of gasoline coupons by local rationing boards. The agency is concerned because consumption of gasoline by civilian motorists has risen steadily in the last few months. It has reached the point where the value of outstanding coupons is more than the total amount of gasoline set aside for civilian use.

**ASK CONTRIBUTIONS**  
Those in charge of the canning class being held at Lander ask that any persons having surplus fruits or vegetables to be canned will please contact Mrs. Jennie Lyons so that the items may be prepared for the school lunch project. Meeting Tuesday of this week, the class decided regular sessions would be held each Tuesday and Thursday afternoon at two o'clock at the school cafeteria, Mrs. Louise Mackay, of Warren, instructing. Assisting this week was Alverda Fagley, home economics advisor for the county.

Chapter 28  
It was more than apparent that the star of *Crimson Angel*, Mario Drew, had forgotten all she had ever known about acting. For a while Chamberlain laughed at her antics, thinking she was clowning; but as the rehearsal progressed and she kept it up, he grew sincerely alarmed and so did Ben Golder.  
Chamberlain knew his patience was on the verge of exploding, so he called a fifteen-minute rest period. Exhausted, he strode off the stage and joined Ben, who sat out front amidst the empty seats in the darkness. Chamberlain sank down beside him.  
"My God, Ben, what's gotten into Mario!" he asked in a low whisper.  
Ben switched his gnawed, unlighted cigar to the other side of his mouth. "She's pulling another lousy trick!"  
"But why?"  
"She wants me to fire her," stated Ben flatly.  
"But, my God, Ben—why?"  
"If I break the contract, that will protect her from my black-balling her."  
"A few more days of this and I'll have to take a rest cure!"  
"Forget her and concentrate on the other members of the cast, and when she snaps out of this—at least you'll be that far ahead with the others."  
"Knowing the young lady's tenacity for holding out, from previous contact with her," said Chamberlain, "I'll bet you another five hundred you'll end up having to fire her."  
"You're on!" said Ben. "That'll put you a thousand in the hole."  
"Well, here goes," said Chamberlain, as he rose and started down the aisle toward the stage.  
MADGE, her part in hand, stood in front of the brilliantly lighted dressing mirror, reading her lines. She liked Mr. Golder and she considered Mr. Chamberlain a genius; the way he knew and told her what to do. As for the cast—well, she had never met a more charming group of people. They were so nice to her. Maybe, thought Madge, as she practiced aloud her lines in true amateur fashion, maybe I have hidden talent and Mr. Chamberlain will discover it. Oh, wouldn't that be wonderful, she continued to dream. John would be so proud of me! A rap on the door startled her.  
"Mr. Chamberlain is waiting," called the stage manager.  
"I'm coming," answered Madge brightly, as she started toward the door. Her giving Mario's red hair a fluffy pat.  
I UNCH hour had been called when Mario and Uncle Louie arrived at the Lyric Theatre.  
Mario swept down the theatre alley toward the stage door. Uncle Louie, who had to skip to keep up with her, called to her in an undertone:  
"I'll wait for you here," he said, as he pantingly stepped into a shadow beneath the fire escape.  
"O. K.," called Mario, as she continued on her way into the theatre. Mario didn't bother to rap on her dressing-room door. She walked right in.  
"Oh, hello, Mario," said Madge calmly. She was cool and casual, while Mario was tense, burning up with a desire to get the whole thing over.  
"Madge," said Mario, "I've finally come to my senses." And that was a lot for Mario to admit.  
"You have?" asked Madge, completely devoid of emotional appreciation.  
"It is you John loves," said Mario with finality, thinking this fact would bring to an end their experimental deal. But she was wrong.  
"I know John loves me," said Madge in a matter-of-fact tone.  
Mario stared at her. "But isn't that what you want? Isn't that what you wanted to find out?"  
"Yes," replied Madge, "but in the meantime I've found out something else."  
"Have you?" Mario asked suspiciously. "What, for instance?"  
"That I, too," announced Madge proudly, "can have a career."  
"What!" gasped Mario.  
"I never dreamed that I had a hidden talent until this morning. You're nuts! You can't act and you know it!"  
"But I can," said Madge indignantly. "Mr. Chamberlain told me so!"  
"You're going to make a fool of yourself."  
"Then in that case, we'll both end up with an even score!"  
MARLO was too beaten, too sunk, to fight any more. She turned and, without another word, left the dressing room. Madge looked at the door; then she shrugged her shoulders as she continued to recite aloud.  
Miserable with defeat, Mario stepped out into the alley. Slowly she approached Uncle Louie.  
"Well, my dear?" he asked.  
Mario spoke dejectedly. "She won't drink the antidote."  
"No?"  
"No," repeated Mario. "She wants a career—my career!"  
"Oh, no, my dear! Oh, no!" said Uncle Louie, who was genuinely surprised.  
Then, for the first time in Mario's life, she cried, not like a woman, but like a heart-broken child. Uncle Louie was touched deeply as he extracted a snowy handkerchief from his pocket and wiped away her rapidly falling tears. Mario dropped her head on his shoulder and blubbered.  
"She won't let me act. She's going to throw all my years of hard work in the ash can. She's going to make an amateur ham out of me!" she sobbed, and Uncle Louie patted her bowed head.  
"Now, now, my dear," he soothed in a fatherly tone, "crying won't help."  
Mario sobbed harder. "I guess I'm paying for all my past sins. I'm being punished!"  
"My dear," said Uncle Louie tenderly, "now that you've learned your lesson, I think it's time for me to step in and try to straighten out this matter."
